

Video Script

For submission to the CHI Play competition, we will create a video showcasing our video game Taxi Trouble. The video will consist of screen-captured gameplay.

The video will start by stating that we are a team of students and that we have set out to create a game to collectively entertain a large group of people.

Following the introduction, the video will show the main gameplay elements for the driver:

- Pick up a passenger
- Race to deliver a passenger on time

Then, the video will show the importance of the navigator with the following gameplay elements:

- Help your driver navigate around the large city
- Plan out an optimal route for your driver
- Activate power-ups

After this, the video will showcase the competitive team gameplay:

- Play against other teams
- Steal passengers in order to win
